BAY ST. LOUIS, MISS., FRIDAY, FEBRUARY 15, 1929

THIRTY-EIGHTH YEAR, NO. 7

WAVELAND BEACH FRONT PROMISES TO BE CENTER DEVELOPMENT ACTIVITY

Construction of Roadway Through Waveland, Clermont Harbor and Lakeshore Raises Values—Many Homes Are Now Being Occupied

Waveland beach front and southward through Clermont Harbor and Lakeshore promises to be the center of a development area due to the construction of the beach boulevard through this section, business men and real estate dealers think. Much of this section has been difficult of access with a very poor road along the front and no road in some places, and now this area is open to auto traffic and hence is more readily accessible.

Many homes on the Waveland front which have been seldom used except for a brief period during the summer, and have been permitted to fall into dilapidation and many of these will now be repaired or torn down. Movements are on foot for some of this repair work, while tentative announcements of building of new homes on this beach front have been made.

Property values are enhanced by this road which brings the property into closer reach to the larger town and opens up an avenue of travel to the front doors.

Another consideration which will bring Lakeshore property into the center of activity is its proximity to New Orleans. This is the nearest beach front of the Mississippi Coast to the Crescent City and consequently is of interest to the commuter, because the nearer one lives to his work the pleasanter the difference of half an hour's ride by train to and from the city means in the course of a day the difference of an hour saved to devote to play and recreation, and the commuter who comes to the Coast for the summer will look to this saving in time need to go to and from work in the city.

The bathing beach on the Waveland-Lakeshore front recognized as one of the finest on the Coast. The sand near the shore and reaching out to the channel is firm with little of the soft mud which is found on other of the beaches in this section.

This part of the Coast is nearest to the waters of the Gulf of Mexico and it rejoices in the constant shade of the long afternoon. Plenty of trees grow beside the shore and the afternoon shade is particularly pleasing in all seasons.

Real estate dealers are being asked many questions regarding the Waveland-Lakeshore district, the inquiries coming in large part from people who seek a home on the Coast and who are looking to the unsettled area with longing eyes as a place where quiet can be had, far removed from heavy traffic and business suggestions.

PARADISE FOR GOLF PLAYERS

Mississippi Gulf Coast Offers Players Twelve Months of the Year—Six Courses

With its fine golf courses, fanned by gentle ozone-laden breezes which when mingled with the salt air from the sea, serves as a stimulant to tired nerves—a climate that is ideal, mild enough for golfing throughout the entire year, yet cool enough to be invigorating—winners that afford a compromise between the rigorous climate of the north and the debilitating warmth of sections still further south—the Mississippi Gulf Coast is truly a golfer's paradise.

From Bay St. Louis, Waveland and beyond on to and through along the Mississippi Gulf Coast one can play golf all the year round. It is truly a golfer's paradise.

In the opinion of Harry B. McMeel, editor and publisher of the *Golfers' Magazine*, the foremost publication in this field of sport, the Mississippi Gulf Coast within two years will be the Golf Mecca of America. "You have location, climate and topography," said Mr. McMeel, "and this golf development throughout this alluring region the past two years has been most satisfactory. In the next three years I hope to see ten 18-hole championship courses in your Gulf country which will gladden the hearts of many of the present two million golfers and make the Mississippi Gulf Coast the Golf Mecca of the World."

Here are the courses along the coast, and it might be well to keep in mind for future reference: Biloxi Golf Course—36 holes on the East road in Biloxi. Jack Dargatzis, professional. Green fees, \$1.00. Edgewater Golf Hotel Course—18 holes near Ocean Springs, east of Biloxi. Professional, Edna Murphy. Green fees, \$1.00. Pine Lakes Golf Course—18 holes near Ocean Springs, east of Biloxi. Professional, Edna Murphy. Green fees, \$1.00. On the coast, there are many more courses, and the number is increasing rapidly.

LECTURER TO VISIT CITY SOON

David Goldstein, Internationally Famed Lecturer to Speak Here Feb. 22

On the evening of Friday, February 22, the long-awaited lecture by David Goldstein, internationally known authority on sociological questions, will take place in Bay St. Louis at St. Stanislaus College Gym.

The subject of Mr. Goldstein's talk will be "What Is Wrong With The Family." His appearance here will be under the auspices of Pere Educ Council, Knights of Columbus, and will be part of that organization's nation-wide educational campaign against the enemies of "Christian Ideals and Institutions." Mr. Goldstein has a complete and first-hand knowledge of his subject. His books, "Socialism; The Nation of Fatherless Children," "Bolshevism: its cure," and "Campaigning for Christ," have brought him the highest commendation from Cardinal Mercier, President Roosevelt, Samuel Gompers and other men of fame in religious, civil and labor circles. He is an entertaining and instructive talker.

It is his policy to hold an "open forum," at the close of his lectures. During this period anyone in the audience is free to ask such questions as he may choose. This feature has been the occasion of some sharp exchanges on the merits of Judge Lindsey's scheme of companionate marriage and the men and women planning to be at the Stanislaus Gym Friday, the 22nd inst., may look forward to more than one clash between the speaker and radical opponents. The doors will open at 7:30 o'clock and the lecture will start promptly at 8 o'clock. Everyone is welcome. There will be no admission charge and no collection or solicitation of any sort. Every man and woman in Bay St. Louis is invited to attend. They are cordially invited hereby.

They are cordially invited hereby.

HARDWOOD MILL AT LOGTOWN

Hoffman-Olson Company of New Orleans Establishes Plant in Hancock County

Hoffman-Olson Company of New Orleans has established a hardwood mill at Logtown. This company purchased one of the Weston mills which was formerly used for cutting yellow pine, and remodeled this mill for use in cutting hardwood. The purchase was made in the late fall and the mill has been cutting some timber since the first of the year.

Practically all kinds of hardwood that grows in this section will be cut by the mill, including oak, gum, cypress and bay. The wood will be cut into timber and dried.

So far none of the timber cut has been shipped but will be marketed as soon as it has dried, it was said. Manager Foley is in charge of the mill.

Pleasant Dance at St. Stanislaus College

The students at St. Stanislaus College provided a pleasant dance Tuesday evening at the college. The dance was held at the college during the afternoon. These young men had issued invitations to the young ladies of the city and a large number of them were present in the dance. Excellent music was furnished by the college orchestra and tempting refreshments of punch and cakes were served.

Port Professional Jim Willson. Green fees, \$1.00.

Gulf Hills Golf Course—18 holes near Ocean Springs, east of Biloxi. Professional, Edna Murphy. Green fees, \$1.00.

Pine Lakes Golf Course—18 holes near Ocean Springs, east of Biloxi. Professional, Edna Murphy. Green fees, \$1.00.

On the coast, there are many more courses, and the number is increasing rapidly.

RECEPTION WILL BE GIVEN FRIDAY FOR BAPTIST PASTOR

Rev. and Mrs. W. S. Allen to be Entertained at Home of Mr. and Mrs. A. B. Day

The Baptist Woman's Missionary Society of the First Baptist church, has issued invitations for a reception to be tendered Friday night, 8 o'clock, at the home of Mr. and Mrs. A. B. Day, of 300 South Toule street, in compliment to Rev. and Mrs. W. S. Allen. Rev. Allen is pastor of the Bay St. Louis and Pass Christian Baptist churches coming on the field in January. His wife and daughter, Miss Martha, who have been residing in Hattiesburg, came to the Coast Saturday of last week and are now domiciled on Second street, Pass Christian.

This reception is the first opportunity the people of the Bay section have had to meet and greet the new pastor, wife and daughter, and many are looking forward pleasantly to this evening. Rev. and Mrs. Allen are charming people and a delightful addition to the religious, civic and social circles.

LAST YEAR SHOWED MARKED DECREASE L. & N. ACCIDENTS

Decrease is 54 Per Cent as Compared With '27—To Seek Further Reduction

Official information comes to The Echo that employ accidents on the L. & N. railroad decreased 54 per cent in 1928 as compared with 1927. This performance is attributed by the L. & N. Employees' Magazine for February to the enthusiastic cooperation of the employees in the company's concerted safety campaign. Shopmen led all classes of employees with 70.81 per cent reduction. In 1927 L. & N. employees sustained 2715 casualties, in 1928 only 1249. E. G. Means, superintendent of safety for the L. & N., has announced he will seek a further reduction of 50 per cent in 1929.

Westinghouse Plans To Treble Space Use

New Orleans—The Westinghouse Electric and Manufacturing Company has announced its expansion of newspaper advertising for 1929 to three times the space used in former years. Newspapers of the best medium for national and local advertising of the products of the Westinghouse plants, J. C. McQuiston, general advertising manager, said. "The last two years have been a crucial test for newspaper advertising, and the fact that we are trebling our space for this year is sufficient proof of the advertising power of the nation's newspapers."

The Westinghouse plans for use of more than 20,000 newspaper advertising space in more than 50 cities in the United States, Mr. McQuiston declared.

FLAT TOP CLUB HOLDS MEETING

Planning Better Home Demonstration Week for Last Week of April

The Flat Top Home Demonstration Club enjoyed a pleasant meeting Tuesday afternoon at the home of Mrs. L. O. Piggett near Picaune. The demonstration of the afternoon, given by Miss Mayme O'Donnell, county agent, had to do with the making of articles for keeping the house well arranged and encouraging sanitation. Shoe bag and individual powder puffs from cotton were among the articles the ladies made. A 100 per cent glass of jelly made from lemons was demonstrated.

The ladies of this club are engaged at the present time in working and planning for a Better Home demonstration, to be held the last week of April as a National Better Homes project. Mrs. Felton Whitfield has been appointed garden chairman. Mrs. John Wheat is yard and play ground chairman and Mrs. E. B. Pitman is house arrangement and furnishing chairman. The club has secured the use of a new bungalow recently built by A. F. Swann from an old house, and this bungalow will be used for the demonstration. The house is of rough lumber and will be stained with brown creosote with cream trimmings, this coloring to blend effectively with the green background about the house. The women will make a center piece of furniture as possible for this Better Homes demonstration, suiting the furniture to the building.

Later a committee for music, art and books will be appointed, and a program committee named as it is planned to hold programs at the demonstration house two days during which visitors will be welcomed to the house.

At the close of the business meeting Tuesday the hostess served tempting refreshments of homemade chocolate cake and coffee.

CIRCUIT COURT 3RD. MONDAY IN MARCH

Circuit court in Hancock county will convene in Bay St. Louis the 3rd Monday in March. In former years the circuit court term was held the third Monday in February, but due to a recent law for the date of the court the court will convene in March.

New Telephone Directories Out

New telephone directories for the Bay-Waveland and Logtown exchanges are out for this week and are being distributed this week. These books are corrected to January 20. Approximately 1000 books were published for use by the subscribers of the telephones. These books were printed for the telephone company by The Echo. This is the first time printed the directories.

Development Of Back Country Necessary For Mississippi Gulf Coast Growth

While the Coast and its development as a resort for tourists to come to the Coast, all too little is being done toward inviting people to come to the Coast section to see the development of the Coast. Residents of the Coast towns, certainly, but preferably developers of the back country which lies behind the Coast and which will be the background and foundation of the future growth of this section.

Susceptible to Colonization.

Certainly a number of land owners and development companies are interesting farmers to move to the Coast and colonize this area, bringing into cultivation untold acres of the cut over pine land which experiment has proven capable of growing almost anything that flourishes in this United States, but the number of farmer-settlers is far too few in proportion to the millions of acres of land in the back country which are awaiting cultivation to "bloom as the rose." Each of the colonization projects has the full support of the business men of the Coast for these men see the possibilities and necessity of support from a large producing population if the Coast is to have a full rounded development.

Kind That Will Come to Stay.

The railroad companies which serve this section are advertising extensively for the traveler to come to the Coast and return home for they are looking to the carrying of these tourists. The colonization companies are looking to the bringing of settlers by train or by motor vehicle and then keeping them here by selling them homes on the Coast. The colonization companies are looking to the bringing of settlers by train or by motor vehicle and then keeping them here by selling them homes on the Coast.

Five-year farm program is being carried out by the U. S. Department of Agriculture.

As Coast residents interested in back development let us not overlook the value of the back country development and let us reach a hand to the settler-farmer.

Let us establish a better home demonstration house two days during which visitors will be welcomed to the house.

Let us establish a better home demonstration house two days during which visitors will be welcomed to the house.

Let us establish a better home demonstration house two days during which visitors will be welcomed to the house.

Let us establish a better home demonstration house two days during which visitors will be welcomed to the house.

SILVER TEA GIVEN FRIDAY AT HOTEL IS BIG SUCCESS

St. Margaret's Daughters Entertained at Delightful Program and Tea

The silver tea given Friday afternoon at the Hotel Weston by St. Margaret's Daughters was a big success both from point of view of the excellent attendance from the delightful program presented and dainty tea served. The local society met Wednesday and decided to give this tea and in a very short time succeeded in inviting a large number of ladies and the committee in charge is to be congratulated upon its success. A total of \$25 was realized from the tea, this sum to be devoted to the charity work of the organization.

The program which included vocal, violin and piano music and readings was well worthy of the talent which gave the numbers. Mrs. H. C. Glover sang as a vocal solo, I Passed By Your Window. Mrs. Glover and Miss Evelyn Lacoste sang as a duet, The Crucifix. Mrs. H. U. Carty accompanied the vocal numbers. Four of the expression pupils of Mrs. Val Yates gave readings, Ellen Conkey giving, Ain't It Fine, Ella Brooks Carty, reading, Soap; Cora Griffith giving The Briar Rose and Ita Mae Jenne Benedetto and Prof. D. W. Lagrou, violin and Miss Mary Benedetto, piano, was enjoyed, this trio playing Sextet from Lucia, Anvil Chorus from William Tell, Minuet in G and Humoresque.

The table was prettily arranged with Maderia cloth, silver service, candelabra and with center piece of jonquils. Mrs. John Green and Mrs. George Boh poured tea and coffee and the Misses Mildred Boh and Margaret Green served sandwiches and nuts.

ANNUAL WOODMEN DANCE IS GIVEN

The annual Mardi Gras dance given by the Bay St. Louis lodge of Woodmen was this week and was equally popular with those of former years. Good music urged everyone to participate in the dance. In the afternoon from 1 to 5:30, a large number of the younger boys and girls danced, and in the evening from 7:30 to 12, many of the older dancers from the Bay, Kila, Picaune Logtown and communities filled the dance floor.

Windows Attractive.

The windows of the Atlas Drug Store are attracting much pleasing comment because of their unusually fine arrangement. Whatever the funds to be displayed, it is so arranged as to present a good appearance and gains the attention of those who pass. The decoration color schemes used are unique and well chosen. Bob Holleman of the Atlas force is responsible for the window decorations and is proving quite an artist in this line.

A PETITION TO BOARD OF SUPERVISORS NEXT MOVE TO PROCURE N. O. H'WAY

Short Route to New Orleans by Waveland and Lakeshore Unanimously Desired—Success Devolves on Next Move by Local Residents

WHERE FISH BITE BEST ALL YEAR

Waters of Gulf and Tributaries Haven for Salt and Fresh Water Fish

The waters of the Gulf abound in countless numbers of fish of more than a hundred species. The shoal waters between the islands and the mainland are the natural home of the white mullet, which are the prey of the large game fish. The bays cutting into the Coast are the favorite breeding places, while both the fresh water streams and brackish bays are the habitat of many varieties of game fish. The climate is favorable for fishing at all times of the year.

Such are the general conditions to make this a fisherman's paradise.

Some of the most important fish caught in the salt waters of the Gulf around the islands are the tarpon, Spanish mackerel speckled trout, red fish, spade, flounder, blackfish and sheepshead, while the rivers abound in black bass (green trout), bream, crappie and perch. In the bays and bayous which are brackish, the fisherman may catch both fresh and salt water fish as they go back and forth with the tide or up to spawn.

Residents as well as visitors to Bay St. Louis find the waters of both Jordan and Wolf rivers and innumerable tributaries thereof teeming with fish all the year, and the waters of Bay St. Louis as well are always calling the fisherman. It is his paradise.

GROWTH IN COUNTY IS DISCUSSED

Leetown Community Organization Hears Talks on Successful Farming

The Leetown Community organization at its meeting Friday night of last week heard some excellent talks on successful farming in this section. Otho Rester, president, presided at the meeting. The five-acre pasture contest which the club is fostering as part of its year's program, was discussed and entrants secured. The idea of the contest is to determine how much forage or pasture material can be handled on this five-acre plot.

Mr. Sorrenson, a newcomer to the county, formerly of Nebraska, gave an illuminating talk on growth in Nebraska. He stressed the many months of growing time here as compared to the short growing season of the north, stating that he believed farmers should succeed in Mississippi on this score alone, without counting the many other advantages. He compared the price obtained for milk products in Nebraska with those here, stating that even though the Nebraska dairymen get only 18 cents a gallon for milk to the 24 cents received by the Mississippi dairymen, even so the Nebraska farmer made money. He pointed out that the Jersey cow which gives quantity of milk and butter fat can be raised here successfully while the harder Holstein must be used in the north, and he showed that the Jersey is cheaper to maintain than the Holstein. He emphasized the sheep raising and hog raising here, pointing out the comparative small amount of food necessary for these animals and the big returns.

Leetown Community organization is planning a National Better Home demonstration, details to be announced later.

Visitors To Coast.

Thirteen coaches were brought into Gulfport Wednesday morning by the Mississippi on the G. & S. I. R. R. There were seven pullmans and two dining cars on the train. But one of the coaches was an extra. This contained a party of home seekers who were sent down by the U. S. Maritime Land Company of Chicago. Large numbers of people are being brought to the Coast at present by the Illinois Central system over the G. & S. I. division on every incoming train.

Making New Flower Beds

A number of new flower beds are being laid out on the L. & N. park and will be planted to flowers suitable for spring and summer blooming. The new beds are a further step toward the beautification of the park to form a pleasant background for the handsome new depot. W. H. Shidler, head gardener at the park, is landscaping the grounds and deserves praise for the fine appearance the park is assuming.

Shidler, head gardener at the park, is landscaping the grounds and deserves praise for the fine appearance the park is assuming.

Planning Benefit Entertainment for Several Local Organizations

An elaborate and interesting program of song, dance and dramatics by students of the various departments of Gulf Park College has been offered to the Bay St. Louis Rotary Club to be given as a benefit for the local organization. The Rotary club, feeling that the local benevolent organizations including the King's Daughters and St. Margaret's Daughters, could the more advantageously present this program, named a committee to confer with these organizations to bring the Gulf Park artists, here for an entertainment.

The Bay St. Louis board of school trustees has generously offered the use of the high school auditorium for the entertainment.

FIRST!

We are to observe a national holiday dedicated to a man who was always "first."

It was said of him that he was "first in war, first in peace and first in the hearts of his countrymen."

Washington's birthday! The day on which we pay tribute to one of the noblest spirits that ever breathed the air of America!

His achievements and nobility are too well known even to be mentioned. What America has not thrilled to the story of his life! Important however is the necessity of learning from Washington—let us each try in our own way to be "first" in whatever service we render or occupation we practice.

And Washington's career proves to us that to be "first" does not require questionable acts, indicate aggressiveness, or disregard for the "other fellow."

Washington teaches us to be "first" we must have high qualities of heart and mind; must strive to be honest and kind at all times; must apply ourselves thoroughly to whatever we wish to do well.

Washington rose to great esteem because of qualities that are worthy of emulation. He did not become "first" by pushing others to the rear. He became a leader both in war and peace through his intrinsic ability and intelligence.

HISTORY OF THE MISSISSIPPI GULF COAST.

Pierre le Moyne, Sieur d'Iberville, was a native of Montreal, Canada. He was sent by the King of France, Louis XIV, to colonize Louisiana. On February 10, 1699, he anchored in the harbor north of Ship Island. On February 13, 1699, he visited the mainland for the first time and there he met the Biloxi Indians, whose ceremonial greetings he received in a kindly spirit that immediately attracted and won them. He erected Fort de Maurepas near what is now Ocean Springs, giving the place at the same time the name of Biloxi in honor of the Biloxi Indians who had deceived him kindly. In the founding of the first settlement in Mississippi and one of the first on the Gulf of Mexico, the building of the fort around which it grew is a matter of much interest, since the site today is to Mississippi what Jamestown is to Virginia and Plymouth Rock is to Massachusetts. Shortly after the founding of Biloxi d'Iberville continued in his quest of discovery and sailed into the beautiful body of water on the west side of which is situated the city of Bay St. Louis. This was on the birthday of his King, and in commemoration of both the natal day and discovery, he named then and there the body of water Bay St. Louis.

SET A GOOD EXAMPLE.

The fact that President-elect Hoover is taking a vacation at the home of James C. Penney, chain store owner, off the Florida coast, has drawn attention to one fact in Mr. Penney's life, which is well worth the attention of thousands of young men in this country.

Mr. Penney began working at an early age, met with considerable success, and now has more than one thousand stores in his organization. Several years ago Mr. Penney realized that due to economical circumstances, his education had been neglected, so that for a year and a half he spent every afternoon with a tutor improving himself.

This example is inspiring and worthy of copying. There are thousands of young men who have not had as great opportunities for education as they would like. There is no reason for them to be discouraged. Even if they cannot afford to have a private teacher they can educate themselves.

In this age, when thousands of valuable volumes can be bought for less than a dollar apiece, covering every conceivable subject of interest to mankind, there is no excuse for permanent ignorance or for the failure to learn and know.

Many small remarks are better left unsaid.

Our extra slice of pie for this week was burned in the oven.

February is the best month, at this time of the year, to pay your bills.

Correct this sentence: "The public is getting tired of looking at pretty girls."

Making excuses for doing your work is one way to postpone a dependable income.

People who don't believe in advertising, rarely want their own scandals published.

Advertising looks like money wasted to the man who isn't up to date in many other ways.

Many a man thinks he is working for the public, when he is not working for anybody, not even himself.

No young man should go into business for himself unless he intends to handle the business that he gets.

The best way any merchant can build the business of Bay St. Louis is to see that his own renders satisfactory service.

It doesn't take a Solomon to tell whether a drummer is on his own or the house's expense by the dinner he orders.

From what we read we doubt if the political wise boys have informed President elect Hoover about the man to be in his cabinet.

Next Sunday is a good Sunday to begin going to church regularly. No matter how well satisfied you are with yourself, you will find that the habit is worth

BATTLESHIPS NECESSARY.

About all that the average citizen knows about the navy is that it takes a lot of money every year. Many of them vaguely know that Uncle Sam has a fleet and some of them suspect that all the sailors and officers have to do is to idle away time until they can be promoted to be admirals.

Last month, however, the navy was centered around the Panama Canal, where extensive maneuvers were carried out for the purpose of properly planning a defense of the canal in the event of war. Units of the fleet, serving as the Black, or enemy fleet, after months of preparation, staged an "attack" on the canal, while other units as the Blue fleet, defended the big ditch, while umpires, kept in touch and ruled ships "damaged," "destroyed," and otherwise rated the attack and defense.

The work of the planes on both sides was very efficient and the defensive value of the submarines clearly established. So much so, that officers believe that both ends of the canal can be adequately defended by mines and submarines, except in the face of an attack from the Saratoga and Lexington, our airplane carriers.

At the same time, experts assert that the backbone of the sea remains, as ever, the battleship, which in recent games demonstrated that it could plunge through outlying destroyers, submarines and airplanes and reach the huge carriers, and effectively dispose of them, and thus eliminate to a large degree, the threat of the airplane. The brilliant raid of the airplanes upon the locks of the canal, in the maneuvers, was made possible only by battleship protection of the mother ship.

SILLY AMERICANS.

Arthur Ponsonby, British citizen, and member of Parliament, recently wrote a book exposing "Falseness in War-time." Among other interesting assertions he says that Great Britain had 10,500 paid propagandists in the United States in 1917.

This is, of course, amazing. Whether some of these workers for the interest of Great Britain, is not stated. But probably there were, in the total, quite a number of "patriots."

The question arises, how far can a citizen of the United States go in his friendship for foreign countries? A case in point is the annoying habit of American citizens anxiously seeking to carry favor with foreign governments in order to be "decorated." Few democratic adherents have declined to accept these paltry favors offered for some alleged service to the foreign nation.

The other day, France named four American Chevaliers of the Legion of Honor. Two lived in New York, one in New Orleans and one in Seattle. What did these gentlemen do for the French government? Did they, too, perform services similar to the war-time services of Americans in partisans proclaiming foreign virtues?

Isn't it about time for Americans to forego these foreign preferences, which, it seems to us, indicates an attitude toward decorations from abroad that is absurd. If nothing else stops the foolishness, Congress ought to pass a law providing a forfeiture of citizenship for any American citizen who accepts such a decoration.

IT IS A PRETTY CUSTOM.

Good old St. Valentine, who died a martyr in Rome many centuries ago, must stand as a guardian over the celebration of his day to keep it from modern defilement. Little or no attempt has been made to modernize this quaint old anniversary sacred to lovers.

For weeks the stores have displayed the pretty little tokens of the type which have served as lover's gifts for generations. Even the delicate lace creations so dear to the hearts of swains and maidens of centuries ago, still persist little changed in form.

Instead of being "jazzed up" to meet the spirit of our age, St. Valentine's Day has become even more refined. The ugly, sometimes malicious conceptions known as "comic valentines" have almost disappeared. Those who still recognize the day seem to cherish only the tender emotions.

Of course for those who would make more lavish gifts the florists and the confectioners have a variety of suggestions, but the little greeting cards still carry the message of love and perpetuate a pretty custom.

EDUCATION AND PROHIBITION

President-elect Hoover is going to try to make the country dryer. His proposed plan is said in part to be based on the education of the public. A splendid idea. It seems to us one of the best ways to enforce prohibition.

It was this method, that of educating the public as to the evils and bad effects of alcoholic stimulants, that was making America the most sober country in the world before the adoption of the prohibitory laws.

It is this method, intelligently applied, that will save the existing laws. That will diminish the disrespect for law that has, according to many, grown out of the prohibition measure.

Prohibition based on individual choice is true prohibition. Personal liberty is a precious possession. It is worth while to teach the true facts of the case against alcoholic excess in order to make persons accept the idea of prohibition of their own free will, eliminating the atmosphere of compulsory regulation of personal habits.

ABOUT INCOME TAX RETURNS.

Citizens of Bay St. Louis will now consider their income tax returns, farmers generally, being exempted, this being one form of their relief. It is worth while, probably to reprint these instructions as to the filing of returns, which must be in by March 15th.

Single persons who had net incomes of \$1,300 for 1928 married persons living with husband or wife, who had net incomes of \$3,500 or more and all persons with gross incomes of over \$5,000 are required to file returns under the 1928 law.

The normal tax rate is 1-1-2 per cent of the first \$4,000 in excess of the personal exemptions and credits, 3 per cent of the next \$4,000 and five per cent on the balance. The surtax rates apply to net incomes in excess of \$10,000.

A FLYING EXHIBIT.

Col. Lindbergh, it seems, is the real flying man. When he steps into the cockpit the journey is about over. Consider, for illustrative purposes, his recent flight from New York to Miami in slightly more than ten hours. From this city he proceeded to open the Miami-Cristobal air mail by a perfect trip, making three hops in as many days, arriving each day on time.

For more than two years, we understand, the colonel has not traveled on a train, making all his journeys through the air. He has traveled thousands of miles successfully and has demonstrated beyond measure the possibilities of aerial transportation.

This Week.

BY ARTHUR BRISBANE.Borah, Good American
Grow Your Own Fur
Coats
Einstein's Discovery
Publishers, Cheer Up

Senator Borah, good American, fears that if we build cruisers without making arrangements satisfactory to Britain we shall have a "ship-building race with England." If necessary, why not have it?

But Britain couldn't afford it, and knows well that we shall never attack Britain unless we are first attacked.

The British, while they could, dominated the seas, and were proud of it. Whoever didn't like it, could lump it. That condition existed from the day when Nelson at Trafalgar wiped out Napoleon's chances of British conquest up to 1924.

It is Uncle Sam's turn now. Airplanes, submarines, fast cruisers, will answer any question from any other nation, and this country should have the answer ready.

Grow your own fur coats at home. Mr. Vernon Bailey of the Agricultural Department tells you that muskrats, supposed to need big swamps, can be raised like rabbits or guinea pigs, in small pens. They need only enough water to keep comfortably wet and cool in summer. This will interest California rabbit raisers, among others.

The world of science, including Bertrand Russell, called the greatest living mathematician, is interested in Professor Einstein's announcement that electro-magnetism and gravity are practically the same. This discovery, says the learned Dr. Phipps, of Columbia University, places Einstein beside Galileo and Newton.

All interested in physics await a demonstration that there is only one kind of force in the universe; that light, heat, motion, electro-magnetism, gravity are all the same. Einstein seems to confirm part of Hubert Spencer's definition of Evolution which describes the "retained emotion" as undergoing a transformation from "an indefinite, incoherent homogeneity to a definite, coherent heterogeneity."

More interesting to practical publishers of newspapers is the fact that the big Woolworth concern plans an enormous advertising campaign amounting to \$3,000,000 the first year. Abandoning the theory that selecting the right location makes advertising unnecessary, proves the wisdom of Woolworth's president, Mr. H. T. Parson.

Get the best position for your store, by all means. But get, also, the best "position" and the best copy for your advertising in a newspaper. Have what the people want, then let the people know you have it. That's the secret of success.

Work fearlessly for the right and you will be honored, and appreciated. AFTER YOU DIE.

Mrs. Pankhurst thought women should vote. Since they created the men for wars, they should have something to say about war.

Everybody agrees with Mrs. Pankhurst now, and Mr. Baldwin, who opposed her, will unveil her monument.

When she was alive, demanding justice for women, they put her in jail. She starved herself until she was released, justice not liking the idea of disposing of her corpse, and that is what it would have had to do.

Released from prison, she renewed her fight, chained herself to the iron railings before the Commons, was jailed again, and again entered self-imposed starvation.

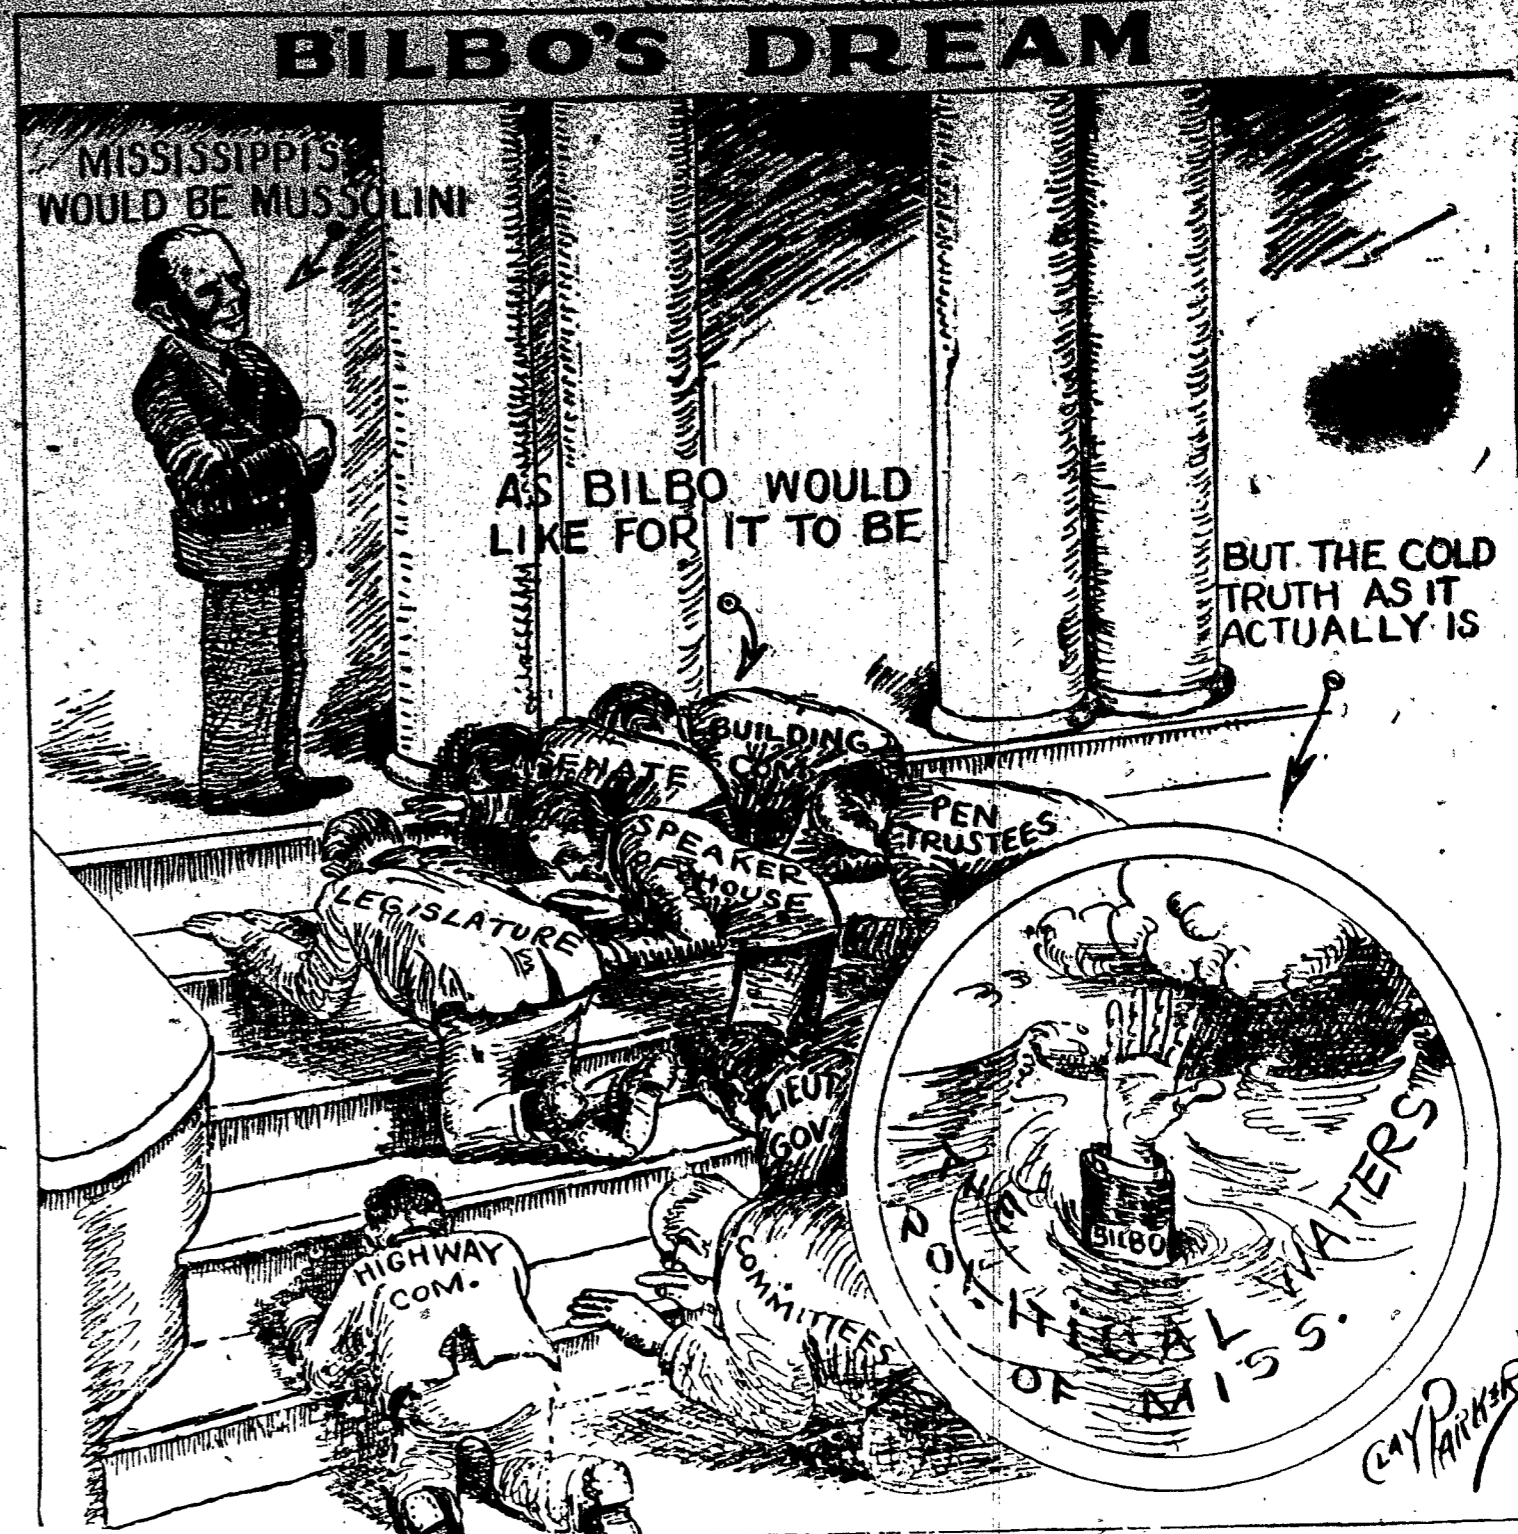

Her courage won. British women vote in the House of Commons and help to make laws. Mrs. Pankhurst lies in her grave, her death hastened by hardship; and those that hounded her now honor her. She is satisfied.

POURING CONCRETE ON NEW STRETCH OF ROAD AT LAKESHORE

Within Ten Days All Concrete Will be Poured on Last Contract

The Southern Paving Construction Company is pouring concrete daily on the last stretch of beach road for which contract has been let, namely, the half mile at the south end of Lakeshore to Bayou Cadet. Within ten days the concrete will be poured on this stretch of roadway, J. C. Nisbet, engineer, states. Then, after the necessary setting of the concrete the road will be opened to traffic. The work on the curb and sidewalk on this stretch will not be laid until the road is opened for traffic. The work on the curb and sidewalk must be brought in from the north of the work and over the roadway.

The work of laying the sidewalks and curbs on the last stretch of roadway north of Bay St. Louis, is going forward rapidly, with the King Company doing this work. It was necessary to wait for the road to be opened to traffic before the sidewalk and curb could be built on this stretch as there were no roads by which the material could be hauled in for work until the highway was finished.

PRAYER MEETINGS
DEVOTED TO STUDY
BOOK OF GENESISPrayer Meetings Under the
Leadership of Rev. Clark
Prove Interesting

The regular Wednesday night prayer meetings at the First Methodist church of which Rev. C. C. Clark is pastor, are proving especially interesting and the study classes are enjoying the discussions propounded by the pastor and many of the members of the congregation participate in the round table discussion.

The book of Genesis is the section of the Bible which has been chosen for study since the first of the year. This week the life of Abraham was chosen for discussion and next week a continuation of this topic and a study of Isaac will be taken up. Particularly interesting was the discussion Wednesday night of last week when Cain and Abel were studied. Rev. Clark extends a cordial invitation to anyone interested in Bible study to attend the prayer services.

To Attend State Meet.

Vinson Smith, Sr., president of the Pass Christian Rotary Club, told The Echo that his club planned to attend the district convention of the Rotary Clubs of the Louisiana-Mississippi district in a body this year, attempting to have a 100 per cent attendance at the district meet, which will be held in Meridian. This club is "going after" the attendance banner. Bay St. Louis Rotarians are given the suggestion that it is but a bit of five miles further to Meridian from Bay St. Louis than it is from Pass Christian and the suggestion offered: how nice to have the entire club at the district meet!

STORE OF MANY SPECIALTIES—

JOS. O. MAUFFRAY
ON THE BEACH.

Here's the store of a thousand and one things—a store of many interests to many people. Here you will find novelties and many things not found elsewhere. In all sizes, shapes and contents and at prices that will make you want them.

Mauffray's Store

—the store of vibrant values

has a special appeal to every one—men, women and children. The store of warm welcome, the rendezvous; the store where your fathers and mothers traded, dependability and honest values at all times. We came equip your home. Our hardware and housefurnishing department is complete. We can clothe every member of the family.

Mauffray's Store of Values

—on the Beach, Bay St. Louis, Miss.

Where to List for Results

I have ready buyers for Bay St. Louis and Waveland property. List your property with me for results. It will pay you.

Mirrors of The State.

Mississippi Happenings

CAME, STAYED—

Chadwick Hughes went to the Liberty jail to visit Arthur Lawson. As he started out he met sheriff N. B. Travis, who insisted that he extend his visit. He accepted only when the sheriff backed his invitation with a warrant charging larceny in an adjoining county.

A HERO, HE—

A city of 15,000 people mourned last week, the death of Nemi Gould, 15-year-old negro boy. Small, black but a hero, Nemi had dashed into a Hattiesburg burning building, saved a sleeping baby. The babe will live; Nemi's burns were fatal.

HORN, HUNTER—

Aron Hunter went a-hunting after hens. He had hardly caught one when Lige Horn horned in and spoilt his fun. Horn raved not if Hunter hunted hens, but since he objected to having his own hen house used as Hunter's hunting grounds, he halted him, had him arrested, given thirty days.

ALESMAN—

When a salesman offered citizens of Cleveland stock in a Memphis building and loan association, they bought, paid cash. With the cash the salesman paid his way out of town. Particularly chagrined was sheriff J. L. Smith, who had bought stock, also allowed the salesman to make the courthouse his headquarters.

BANISHED BEAR—

To the Circle M ranch at Macos, two years ago came a bear from British Columbia. Bruin liked his new home, was petted and pampered. Presuming so much on friendship he became a nuisance, he was sent last week to play with other bears at the Memphis zoo.

ABOUT BOOZE—

Wheeler Johnson of Duck Hill refused to go with Winston Blakely to buy booze. They argued. A few hours later Winston and his three Blakely brothers entered a store, brandished their pistols. Soon came Johnson. Bullets flew. Result: Johnson killed, three Blakely brothers and one bystander wounded.

SHIP OF TATE—

"Let the women do the work," especially when they want to anyway, is the doctrine adopted by men. Tate county, where more women hold public office than anywhere in Mississippi. Of six major county offices only two are held by men.

VEGETABLES, BUSH—

That summertime cotton choppers might take interest in winter vegetables, owners of plantations nearby. Summer offered prizes for best gardens grown by tenants. Ahead of the close of last week's check was Ella Bush, black, on the Swan Lake plantation.

EVERY CENT—

Thieves at Eupora pulled and pried at a C. & G. station window. Suffered inside the ticket office they pulled and pried at the cash drawer, carried off all the cash. Their loot: 54 coppers.

BLACK, COAL—

Guy Northrop, Pass Christian coal dealer noticed that his bins went down faster than they should, noticed also tracks in his yard not made by his own trucks. One muddy morning recently dealer Northrop followed the tracks, found a pile of his coal at the home of negro Theodore Bradford.

LAUREL FOR LUNDY—

About Lexington, Miss., not many years ago scampers and played little Marietta Lundy. Last week Marietta, now Miss Lundy, was chosen secretary of the West Virginia state senate.

A Good Comeback

Elderly lady: Does your father know you are smoking, little boy? Youth (about 14 years old): You are married ain't you? Elderly lady: I am. Youth: Does your husband know you speak to strange men?—Answers.

Worried Night after Night as health declined

"I suffered frequently from nervous headaches, and I could not sleep well," says M. C. Dover, R.F.D., Hickory Grove, S.C. "I was thin and pale. I was so weak I could scarcely go to work. I tried several remedies which were suggested, but nothing seemed to help me. Night after night I worried because I could see I was going down-hill. I had my children to look after, and I was afraid of what would become of them if anything happened to me. I began to take Cardui on the recommendation of a friend. It wasn't long until I was beginning to pick up. My strength gradually began to return. I rested better at night and was less nervous. I took several bottles of Cardui, and when I was finally feeling better, I was in fine health."

CARDUI Helps Women To Health

Cardui is a pure, natural, and powerful blood purifier. It is the only medicine that is both a blood purifier and a tonic. It is the only medicine that is both a blood purifier and a tonic. It is the only medicine that is both a blood purifier and a tonic.

Hints for the Home

by Nancy Hart

So much can be done to brighten dull rooms without completely refurnishing. To add a pleasing note of hospitality and brightness to the living room we may stand on a low table one of those large red lacquer trays with a tea service in Royal Canton or some other colorful pattern—or on the top of the new photograph boxes which come in bright colors with delightful old prints mounted on the lid.

In the dining room the eye looks to find a satisfying note of color in the neighborhood of the sideboard or serving table. This can be given by the appointments on the board or by a lovely picture hung above it—or by both.

One chair in colorful upholstery can do wonders for an otherwise drab room—and color and pattern in the draperies prove an almost certain cure for dullness.

Menu for Sunday Dinner

Fruit cocktail
Braised pork tenderloins
au gratin potatoes
Green beans
Stuffed tomato salad
Fig pudding
Coffee.

When Broiling Steak, Remember—

Broil without salt, as salt draws out the juices. Cook over a hot fire turning frequently, searing both sides. Place on a hot platter, salt and pepper to taste, spread top with butter and serve at once.

New Recipe for Kraut

In bottom of a large baking dish place a layer of kraut, then a layer of cooked egg noodles and a layer of crumbled sausage; repeat until dish is filled; place whole sausages on top and bake slowly until the meat is browned (about 1 hour).

Pineapple Waldorf Salad

Pare, quarter and core 3 apples and cut into tiny cubes. Add 1 cup drained crushed pineapple, 1-2 cup chopped dates, 1-2 cup chopped walnuts and 1-2 cup chopped celery. Mix with thick mayonnaise and serve on lettuce.

Baked Date Pudding

1 cup sugar, 3 eggs beaten light, 1 tablespoon flour, 1 teaspoon baking powder, 1 cup chopped nuts, 1 cup chopped dates, 1-2 cup cracker crumbs. Bake in moderate oven. Serve with whipped cream.

Prevents Rust on Tinware

Before using new tinware, rub well with lard and stand it in a hot oven until thoroughly heated. This will prevent rust in future use.

WILL INVESTIGATE QUALITY OF MILK

The Rotary Club at a recent meeting discussed the quality of milk sold in Bay St. Louis by local dealers and dairymen, several members expressing an opinion that much of the milk sold left a great deal to be desired in the quality. A committee was appointed to investigate the matter of the milk supply and the quality and this committee is to report back to the club and then whatever steps necessary to get better milk will be taken, it was said.

Winter Grass Parks.

Those who ride the L. & N. trains and those who motor through the L. & N. park at this season are made happy by the bright green winter grass lawns which carpet the parks and extend on the south side of the tracks to the city hall and down to the waters of the Bay on the east. The brilliant green is particularly attractive at this winter season.

Missionary Society Will Meet Tuesday

The Methodist Missionary Society will hold its regular monthly meeting Tuesday afternoon of next week, 3 o'clock, at the home of Mrs. S. D. Siler on Nicholson avenue and South Beach Boulevard. Mrs. J. C. Buckley will be cohostess with Mrs. Siler at the meeting. All members are asked to attend.

PLANT AT LEAST ONE NEW VEGETABLE IN GARDEN THIS YEAR FOR HEALTH

Suggestions for Making Ready the Vegetable Garden at This Season for Spring Growth—A Healthful, Profitable Recreation

Spring is here, or almost, at least on its way, and no thought is more prevalent in the minds of the gardener than that of preparing the ground for planting the successful spring garden. There are few vegetables that one may name which are not easily and profitably grown in this section in the spring garden and the very ease with which vegetables flourish make them popular in the garden.

The experienced gardener has already worked the ground for his vegetable "patch," several times probably since last fall when the last of the summer vegetables were gathered and in many instances the ground is already planted to the earliest of the spring vegetables or is having the last of the winter crop taken from the beds. It is to the gardener who has not prepared his ground that these suggestions come handily.

First of all the necessity of having a well drained garden plot must be recognized and if ditching is necessary to eliminate the excess water of the ground, then prepare the ditch either on top of the ground or add surface drainage with the needed sewage pipes. When the ground has proper drainage then the second step is to loosen the soil with plow or shovel. The seasoned gardeners in this section believe that if the ground is spaded or plowed and the soil left for several days to "air" as it were, that the air thus taken into the clods will be beneficial to the plants. Be that as it may, the deep plowing or spading must be followed with a thorough pulverization of the clods and then the beds or rows can be raked into position and drills arranged and made ready for the seed.

Few gardeners suggest that the fertilizer should be added before the planting in the plant food in the form of any fertilizer chosen, either the animal or commercial. The average of the commercial fertilizer comes it would seem in the less grass and weeds that are apt to grow in the garden and attempt to choke out the vegetables, the weeds growing more rapidly than the vegetables and usurping too much strength from the soil.

Injured in Opera
Mary Garden, opera star, injured accidentally during an opera scene in a Chicago Theatre, stifled her cries until she was carried behind the wings, and refused to allow news of her injury to be made public. Patrons did not suspect the substitution of a double.

In planting seed follow carefully directions given on packages. For example when putting in lettuce or radish or turnip or any of the very small seed it is well to sprinkle the seed on the ground and then sprinkle a bit of soil above the seed, not attempt to plant them in deep drills for this will bury them too deeply underground. A great advantage in planting seed will be found to come from using a board to lay down on top of the ground after the seed have been covered with soil and then press or walk upon this board to push the earth particles closely around the seed. The reason for this is obvious. If the seed germinate and there is no soil very near to it for the weeds to cling to they are apt to die because of not having food and water in reach. It must be remembered that the first rootlets from a germinating seed are very small, and that they need to have their food in close reach in order to gain strength to spread out and down to seek food. Many gardeners walk on their seed after they have been planted. This

BUSY WEEK ON COAST, BIG MEETS

Conventions and Mardi Gras Celebration Occupy Coast Cities

This week has proved quite a busy one along the Coast with two especially large conventions in Gulfport and with Mardi Gras celebration at Biloxi, with 250 Northern tourists coming in over the I. C. spending Sunday at Gulfport and visiting various points of the Coast from Bay St. Louis to Biloxi, with a special land cruise via L. & N. on the Coast Monday bringing over 200 visitors, and with a large number of visitors arriving daily by each train from the North; with an official visit from the field secretary of the Business and Professional Women's Clubs spending Tuesday in Pass Christian,

accomplishes only part of the purpose of pressing the soil around the seed because the impression of the foot is naturally uneven, hence the use of the board is suggested. After the plants are up above the ground a most careful protection in the way of adequate moisture is urged as many of the spring gardens die or are slow of growth for the lack of sufficient moisture. The spring sun is very warm for several hours of the day and the top moisture is drawn from the soil leaving the tender short rootlets dry and without the needed water for growth. For several weeks careful watering of the garden is urged.

After the plants have reached an inch in height is found a good time to add the fertilizer, then again after the plants are reaching good size a second fertilization is often found advantageous. As to cultivation of the young garden, three general rules may be given: work often and well but do not disturb the rootlets themselves; do not pile soil up around the foot of the plants and hinders "breathing" of the plants; and be careful to keep all insects and bugs away from the growing plants. A question often asked by the experienced gardener is what tools do I need? A hoe, a rake, a shovel and some sort of hand trowel, will be found sufficient for the small garden space.

as guest of the Pass Christian club, and with an airplane visit Thursday at Gulfport of the national president of real estate boards. These persons happening into the Coast would be struck by the holiday spirit that pervades all meetings and appointments for the visiting notables. One of the Sunday visitors remarks: "It is always this much fun to live on the Coast I am coming to stay."

The two conventions in Gulfport the first of the week were the Mississippi Grand Lodge of Free and Accepted Masons meeting Monday through Wednesday and the other was the Mississippi Bottlers Association which convened Monday and Tuesday. The almost 1500 visitors that these two conventions brought to the Coast were almost all housed in Gulfport, the many homes registering their vacant rooms with the committees.

Carnival at Biloxi was by far the largest celebration of its kind ever held at that city and through the co-operations of other Coast towns the floats assumed much larger size and prominence than on any previous occasion. Thousands of Coast residents who did not go to New Orleans or Mobile for the larger Carnival celebrations enjoyed the Mardi Gras parades at Biloxi.

The coming of the many Coast visitors at this season, even though they remained but a day, will leave a pleasing impression on their minds as the sun shone brightly for the Sunday and Monday tourists, and what "Coast people" call "cold" weather, they characterized as "bracing". The airplane visit of the president of the national real estate boards inaugurated the first stop of five tours planned by this distinguished visitor who is using his airplane as his office, a unique arrangement.

Can't Talk to Wife, Too Cross and Nervous

"Even my husband couldn't talk to me, I was so cross and nervous. Vinol has made me a different and happy woman."—Mrs. N. McCall. Vinol is a compound of iron, phosphates, cod liver peptone, etc. The very FIRST bottle makes you sleep better and have a BIG appetite. Nervous, easily tired people are surprised how QUICK the iron, phosphates, etc., give new life and pep. Vinol tastes delicious. L. A. De Montluzin Son, Druggists.

The Sea Coast Echo

CITY ECHOES.

—Mrs. E. J. Leonard spent the week-end in New Orleans enjoying the Carnival season.

—Mr. and Mrs. John Bambrino were Mardi Gras visitors to New Orleans, guests of friends in Cleveland avenue.

—Mrs. J. C. Roland who has been confined to her home by illness for a week has recovered and is able to be out.

—ATLAS Cattle DIP the same quality as the CARLOAD, we sold the county under contract on sale at the Atlas Drug Store.

—Mrs. J. U. Jordy and Miss Glenn Sims spent Tuesday in New Orleans enjoying the Mardi Gras celebration.

—County Attorney E. J. Gex and Clerk of the Courts A. G. Favre were business visitors to New Orleans Wednesday.

—Miss Mercedes Minton spent from Sunday to Wednesday in New Orleans visiting her sister and brother-in-law, Mr. and Mrs. T. Navarro, and enjoying the Carnival season.

—Mr. and Mrs. P. A. Stilwell and Mr. and Mrs. M. P. Bouslog of Gulfport, motored to the Bay Sunday, spending the day at the seashore and viewing the seawall and boulevard.

—Mr. and Mrs. N. Dick had as their guest at their home in Main Street Sunday, Mrs. C. J. Eulich, of New Orleans, who is a frequent visitor to her daughter, Mrs. Dick, and son, Jaubert Eulich.

—Miss Marcelite Telharr, secretary to the clerk of the courts, A. G. Favre, has returned from a week-end trip to New Orleans, where she was the guest of friends while attending the Carnival festivities.

—Otis B. Cassanova, Mississippi Experiment Station at Holt Springs, was a visitor to Bay St. Louis Wednesday, and as a Rotarian attended the luncheon of the local club. Mr. Cassanova is originally from Logtown.

—Mr. Myric Ansley, now residing with his parents in St. Louis, visited his uncle, Mr. Luther M. Ansley, and family, in Carroll avenue, during the week while on a visit South. Incidentally visiting many friends of his former home town.

—Three hundred gallons of paint was sold to the County Board of Supervisors last week by the Atlas Drug Store. This paint, which is in three colors, Green, Red and Yellow, will be used by the inspectors to identify dipped cattle.

—Miss Clara Fitzpatrick, charming and accomplished young lady of New Orleans, was the guest a few days since of Misses Mary and Hermine Perkins, at the family home on North Beach Boulevard. They also have as their house guest Miss Sue Murray, of St. Louis.

—Misses Celia Mooney, Rosalind Rogan, Marybelle Rogan, Agnes Marshall, Ethel Ketchum, Kathryn Newcomb, were members of a house party from New Orleans for the week-end, occupying apartments at St. Margaret's Daughters Home on the South Beach Boulevard.

—Mr. Leo E. Kenney, Sr. at Saturday in Bay St. Louis looking after property interests and shaking hands with many friends after the absence of several weeks. Mr. and Mrs. Kenney plan to return to their home in the near future, glad news to the many local friends and acquaintances.

—Siler's libraries are advertised elsewhere in this issue of the Echo, with one of the many branches in Bay St. Louis, at the Siler residence in Nicholson avenue and South Beach Boulevard, Waveland. A splendid selection offers the best and newest books and the charge of rental is infinitesimal.

—Bay St. Louis, as usual, sent its heavy quota of visitors to New Orleans Carnival, during week-end and particularly on Mardi Gras Day, when the L. & N. R. Co. operated a special car and night train. All in all, New Orleans Carnival was one of the biggest and best yet and proved of interest and enjoyment to the many who visited the city at its best and when decorated with its gayest colors.

—Mr. Robert Hollerman, popular clerk at the Atlas Drug Store is being complimented highly for the beautiful window which he decorated at that store with the "Lucriferia Vanderbilt Perfumes, Face Powders" is a new creation and is displayed in the Rotogravure section of the T. P. every Sunday. Coupons with each ad if clipped and signed will be accepted at this drug store.

—Cards have been received in this city announcing the birth of Gloria Ann to Mr. and Mrs. Loyd Ansley, which happy event took place at the home of the young couple in St. Louis, January 19th; weight 7 pounds. Mr. Loyd Ansley is a son of Mr. and Mrs. Emmet Ansley and a resident of Bay St. Louis until two or three years ago when the family moved away. The glad news to many friends will be received with much interest.

—E. Terrell Perkins, well-known local realtor, with offices in New Orleans, urges all property owners to get their summer renting property in tip-top shape. He says that the rental of over-the-lake property is now open in New Orleans and he is receiving many inquiries. He says that the demand for summer rentals is unusually active, but that premises not in good shape will fail to meet the demand. Mr. Perkins says that from present active indications the summer will be over in the Bay-Waveland area by the first of June.

IN SOCIAL CIRCLES

(By Our Society Editor)

COMPLIMENTS VISITORS.

Mrs. C. C. McDonald and Mrs. Henry Osmach were hostesses Wednesday at a delightful luncheon party at the Edgewater Gulf Hotel complementing three Coast visitors, Mrs. Herbert Stone of Kingsport, Tenn., Mrs. George Boyd of Dresden, Tenn., and Mrs. J. W. Bell of Oxford. The guests other than the honorees and hostesses were Mrs. James Evans, and Mrs. C. M. Shipp. The party motored along the Coast enjoying the pleasant drive and dainty luncheon served at this popular hotel. Mrs. Stone and Mrs. Boyd are guests of Mrs. Stone and daughter, Mrs. Evans and Mrs. Bell, sister of Mrs. Shipp, is at Hotel Weston with her husband for a month's stay.

BRIDGE LUNCHEON.

Mrs. George R. Rea will entertain at a bridge luncheon at her handsome home on Washington avenue Saturday in compliment to Mrs. E. Loeliger of New York City, sister of Mrs. Victor Camors, and Mrs. Herbert Stone of Kingsport, Tenn. Mrs. Loeliger and husband were guests here for a time. He has returned to the North but Mrs. Loeliger is spending a month in New Orleans, coming over for week-end to the Bay.

GAME OF BRIDGE.

A pleasant game of bridge was played and an enjoyable evening spent Saturday at the home of Dr. and Mrs. J. C. Buckley at which time the one table club of ladies and their husbands were guests of Mrs. Buckley. L. Skatvold were high score winners and received lovely prizes. A dainty supper was served at the close of play. Those present were: Mr. and Mrs. C. L. Skatvold, Mr. and Mrs. K. W. Pepperdene, Mr. and Mrs. Chas. G. Moreau and Dr. and Mrs. Buckley.

—The many local friends of Mr. and Mrs. Jas. S. Rea, parents of our George R. Rea, who reside at Wesson, will learn with grateful interest of the continued improvement in the condition of Mr. Rea, who has been quite ill for several weeks with flu and threatened with pneumonia at his home. He is up and about the house and is convalescing rapidly and it is planned by the first of March he will be able to be at his business, as usual.

—Mrs. Leo W. Seal and little son, Leo, aged 5, who has been desperately ill at Touro, New Orleans, the past several weeks, returned home during the early part of the week, decidedly better. The young patient was a victim of mastoiditis and underwent a most serious operation. The entire community was tenderly concerned and the convalescence of Leo, idol of the local circle of friends and acquaintances, will be learned with more than ordinary solicitude.

—Harry J. Landry, former resident of Bay St. Louis, and son of Mrs. F. J. Landry, residing in State street, has received added honor and distinction. The Friar's Point Co. homian, his home paper, says:

"Appointments to the distinguished guest committee of the national organization of the American Legion, as announced by Paul V. McNutt, national commander, have just been received at department headquarters at Jackson, Miss. H. J. Landry, Adjutant of the William Ward Post, No. 91 of the American Legion of this place, represents Mississippi on the committee. Harry Landry deserves all that he gets and then some."

—The Brookhaven Leader issued a handsome special number on the occasion of completion of the new building for the Brookhaven Bank & Trust Company, the general contract of which was carried out by the Geis Onkes contracting and building firm, of which our townsman, James N. Geary is the senior member. The building, a three-story structure of stone and marble, is one of the finest in the state and the contractors and builders are receiving congratulatory notices on their splendid work. The history of this bank is interesting. In 1911 its deposits were \$90,942.11; in 1921, \$504,989.72; in 1921, \$1,206,206.08, and Feb. 4, 1929, day of moving into new building, \$2,781,492.77. The Leader, one of the best newspapers in Mississippi, is to be congratulated on its enterprise and excellence of this special edition.

Good Oysters Taken.

It is understood that the oysters taken from the beds near the Bay and Pass Christian and in the Cat Island section are very good this year being of good size and in fine condition. It is thought that the oysters are so good this season because of the care of the commission in planting and caring for the beds. Much of the local supply of this tempting sea food comes from the nearby local waters.

NOTICE TO PUBLIC.

In order to safely facilitate certain construction work, current over our Bay-Waveland lines will be cut off Sunday, February 17, between the hours of 2 and 4 o'clock p. m.

Mississippi Power Co.

LETTERS FROM THE PEOPLE

TAKES L. & N. ADVERTISING TO TASK.

Atlanta, Ga. Feb. 7, '29

Editor Sea Coast Echo: The L. & N. has put on quite an extensive advertising campaign for the present season, which it states will reach over 25,000,000 readers in the North and Canada. I was favored with copies of the 43 double column ads scheduled to appear, and noted with amazement, bordering on incredulity, the omission of any specific mention of Mississippi in any one of the entire number of the ads, evidently contenting itself with reference to the "Gulf Coast"—a term so general as to be equally applicable to any part of the area extending for many, many hundreds of miles from the southernmost tip of Florida to that of Mexico. Mention is made in nearly every one of the ads to Pensacola, Mobile and New Orleans—all in other states, while merely casual reference is made to the "Biloxi Indians" and "Pascagoula's Singing River" but with nothing to indicate that they are in Mississippi.

I have written Mr. Pusey, G. P. A. of the line at Louisville, and also the Chambers Advertising Agency of N. O., that prepared the ads, inquiring as to the reason of the omission, but obtained no information, and I feel justified in over-exaggerating the grave injustice done the Mississippi Coast.

If certainly strikes me that a publicity campaign on the "Gulf Coast" without mention of Mississippi, resembles nothing so much as the play of Hamlet with the role of the Melancholy Dane wholly omitted.

With all its infinite charm, beauty, potentialities, etc., the state of Mississippi has no metropolitan city to herald their presence to the world; but labors under the disadvantage of having in close proximity to it the cities of New Orleans, Memphis, Mobile, Montgomery, and Birmingham, that draw large values from her without compensating returns.

Through Florida and California lack the centrality of location of Mississippi, and proximity to the great centers of population which she enjoys, in addition to lack of numerous and distinct advantages which she has over them, nevertheless, wise and far seeing interests keep those states constantly in the public eye. With the result that they annually attract tens upon tens of thousands of tourists as compared with Mississippi's few; but they are known far and wide throughout the United States and other countries, while Mississippi is rarely heard of. Due largely to this fact—most certainly, not to its lack of deserving worth, California's increase in population in recent years has been such that she is to gain SIX additional representatives in the U. S. apportionment, Florida is to gain ONE, and Mississippi a LOSS of TWO. Most assuredly, this constitutes a sad commentary upon the agencies that should be interested and active in promoting her development and her growth.

I believe that by vigorous protest on the part of the various Gulf Coast papers, the mayors of her towns, and the heads of the various chambers of commerce, boards of trade, etc., the L. & N. may be induced to see the light and change its policy of omitting mention of Mississippi from its general publicity campaign.

I am prompted to offer this suggestion by virtue of the fact that I am a native Mississippian, was reared and educated there, and own large areas of Gulf Coast property near Pascagoula.

Sincerely trusting to have your cooperation in my efforts, I beg to remain, with the best of good wishes, and the hope of being favored with an acknowledgement of this communication.

Yours cordially and truly,
E. L. MARTIN.
840 Park St., Atlanta.

A PLEA FOR GAR ELIMINATION.

Bay St. Louis, Miss., Feb. 11, 1929.
Editor Sea Coast Echo:

I have devoted quite some time to the problem of why the Green Trout have almost entirely gone out of some of our bayous and very few left in other bayous. The fishing is more intense than it was fifteen years ago but that does not account for the miserable amount of fish one can catch now. I was talking to an old fellow the other day about the fishing twenty years ago and I was astonished at the facts this old fellow told me. Now, this old fellow told me a deliberate falsehood unless he is in a pinch. Those times anyone could go out with a peeled gum sapling, 12 foot of seine twine, one good hook, cork from an old bottle, seven or eight crawfish or that many

BAY ST. LOUIS, MISS.

WORK AND PLAY

AT S. J. A.

Pass Christian Game.

The Pass Christian game materialized as scheduled last Wednesday afternoon. The Gold Jays were on the offensive and gave the Pass team the trouble of a hard defensive. The smallness of the court and its sandiness made the game rather slow in the beginning but by the last quarter both teams had mustered their fighting blood and the game grew a little exciting. It was the final score in favor of the Gold Jays.

Gild Jays Down Kils.

The most exciting game of the week was the game scheduled as a preliminary to the boys game at the College gym last Friday. The centers, Thelma Lee Dyess and Helen Wolff, seemed to it that the ball remained off the foreign territory and when it did get there, Marie Quintini's and Lottie Smith's splendid guarding succeeded in keeping the Kils forwards from scoring and the final score, 27-11, attested to the fact that Anna Blaise and Kate Allingham seemed to have no difficulty in finding the basket.

S. J. A. Enjoys College Game.

The girls were thrilled by the boys game which followed theirs and they wish to compliment the S. S. C. team for their fine playing and splendid victory over the Miss. College Frosh.

Another Busy Week for Jays.

The present week promises to be busier yet than last for the Jays. Four games have been scheduled for the various teams.

Wednesday afternoon the Gold Jays will journey to Gulfport to meet last year's Gulf Coast champions.

They have promised to give the Jays a return game at the College gym next Saturday. The game will start at 7:30 p. m. and will be played as a preliminary to the College-Loyola game.

Thursday afternoon the Blue Jays will play the Kils grammar grade team on the latter's court.

The Red Jays will be given their chance on Friday afternoon at 3:30. They are scheduled for a game with the "Plucky Six" S. J. A. team of Pass Christian some time before the holidays and of course they expect to run up a still higher score on the Jay court.

Eighth Grade Proud Possessors of Class Pins.

The eighth grade after much impatient waiting have at last received their class pins. The regular S. J. A. monogram on the model chosen and forming the neat little class pin of which this grade may well be proud.

Russell-Jorns Nuptials

Adam Russell of Waveland and Miss Hilda Dorothy Jorns of New Orleans were married at the home of the bride in New Orleans Saturday afternoon, 3 o'clock, Rev. M. J. Costello, pastor of St. Charles's Chapel in Waveland officiating at the impressive service. Mr. and Mrs. Russell will reside in Waveland where Mr. Russell is superintendent of the waterworks department of the town.

crabs, and fish when tide was coming in, and this old timer would catch in one half hour from seven to eight green trout, three and four pounds each. It was no trick to catch two fish in about half an hour. This was generally in old Bayou Philip. Fishing now in Bayou Philip with three or four different bobs you get about three strikes to each trip. This is more intense than it was fifteen years ago but that does not account for the miserable amount of fish one can catch now. I was talking to an old fellow the other day about the fishing twenty years ago and I was astonished at the facts this old fellow told me.
